1. Brief background

The Somali Institute for Environmental Peace (SIEP) is a non-governmental and non-profit Institution founded in 2017. SIEP is legally registered with the Ministry of Education, Culture and Higher Education of the Federal Government of Somalia as the First Pioneer Institute for environmental advocacy. Our slogan is: **'Peaceful Means for Advancing Sustainability'**. The main of the Institute is to respond and prevent the environmental problems through conduct research, provide environmental education, and consultancy services, increase Environmental awareness and promote peace in Somalia in order to reduce poverty and promote sustainable development. The Institute explores and empowers the indigenous and local communities that have developed or are developing their own monitoring knowledge related to biodiversity, ecosystems, water, oceans, land and other resources, as well as human well-being, based on traditional knowledge (soomali: Xeer) and holistic view of people and the environment.

The vision of SIEP is to be **'A Pioneer and Excellence Centre for Peace on Environment in Somalia'**. The institute is headquartered in Mogadishu-Somalia. Our focus areas are climate change, biodiversity, environmental education and awareness, to improve the affected community's livelihoods, safeguarding, restorative of our nature and support policymakers in making appropriate decisions.

SIEP has qualified, capable, and dedicated staff members and consultants who can carry the assignment regarding Environmental issues in Somalia. Our accurate, insightful and in-depth advisory services provided to our clients with objectives and independent guidance in support of their projects, policy, and strategic goals. Capabilities range from safeguarding the environment, society and knowledge generation through consultative and participatory approaches to full-scale project implementation and management.
